EDUCATION

MCA   Sep 2022 – Sep 2024
Vellore Institute of Technology   Vellore, India
VITMEE RANK 138

BSC.CS   Mar 2019 – Jun 2022
University Of Mumbai   Mumbai, India

PROFESSIONAL EXPERIENCE

Full Stack Web Developer   Nov 2023 – Jan 2024
Hive ADS Media (Internship)   pune, India
Employee Management System Development (PHP, MySQL, Tailwind CSS)
- Revamped the entire System UI, elevating the user experience by implementing a modern design with Tailwind CSS.
- Introduced new functionalities, including a break system and task management module.
- Resolved existing bugs and improved system stability through rigorous testing.

Client WordPress Site Enhancement
- Expanded functionality on a client's WordPress site based on specific needs.
- Improved user experience with intuitive navigation and interactive elements.

Wix Website Redesign and Speed Optimization
- Boosted company Wix website speed by 20% through redesign and optimization.

PROJECTS

Data Dashboard | Javascript, React, Bootstrap, Python, Django, SQLite
Front-end: https://dashboard-frontend-green.vercel.app ⚲   Back-end: https://abidwork.pythonanywhere.com/api ⚲
- Developed a data dashboard project that integrates a Django Back-end, a React Front-end, and utilizes Chart.js and Bootstrap for dynamic data visualization.
- Enabled users to upload JSON data, which is processed and served as an API, and provided over eight filters for data manipulation.
- Hosted the project on PythonAnywhere for the Back-end and Vercel for the Front-end to ensure reliability and optimal performance.

Search Select Plus - Firefox Extension | JavaScript, Firefox WebExtensions API, HTML/CSS
https://addons.mozilla.org/en-US/firefox/addon/search-select-plus/
- Designed and developed a custom Firefox browser extension focused on enhancing the user's search engine experience, simplifying text interaction on webpages, and streamlining information retrieval.
- Implemented a dynamic navigation bar that appears when users select text, offering a wide range of actions to efficiently navigate and interact with the selected content.
- Incorporated multiple search engine integrations, enabling users to seamlessly search selected text on their preferred search engine by selecting the relevant option from the navigation bar.

Management System - for Restaurant | Python, Django, MySQL, Bootstrap
https://abidsayyed.pythonanywhere.com ⚲
- Developed a Django-based restaurant management system using Python, Bootstrap, and MySQL.
- Designed secure user authentication, reservation form, and user friendly review system.
- Dynamically displayed restaurant details from the MySQL database using Bootstrap components.

SKILLS

- Languages: Java, JavaScript, Python, MySQL, Sqlite, HTML/CSS

- Frameworks: React, Django, Django REST framework, Tailwind CSS, Bootstrap, chart.js Steamlit

- Developer Tools: Git, Docker, pythonanywhere, Google Colab, VS Code, PyCharm, IntelliJ, WebStorm.
